

To All:

Ref: Second Shipment of WPS to Cuba

I am sure you are wondering what is happening with the delivery of your WPS to Cuba? On July 12th I had a meeting with Agape Flights, CEO Allen Speer, they were instrumental in the successful delivery last year. We will be working with them again this year. The anticipated delivery dates are either September 19th or September 26th. The freight cost which are included to the cost quoted to you is \$2.00 dollars per pound. This is the figure we used in calculating out the total costs. So I feel very good about that. I have not been able to arrange a meeting with Joel Dopic, President of Council of Churches in Cuba this is the person the WPS will be delivered to in Havana. We wanted this meeting to confirm tax rate for this trip so we have used last year costs plus small increase. So I feel comfortable with where we are money wise. We will always have unknowns dealing with Cuba but everything possible has been done to keep are cost to a minimum.

I met with Kenn Visser with Water One the manufacturer of the systems July 14th and ordered the needed systems.

[Another story:](#)

Talking with Kenn we both said lets order one more and just place it in God's hand and we will just let him take care of it. I had afterthoughts that's \$2,400.00 we do not have but I have committed to that, what if we do not get someone to pay for this? Who is going to pay for it? Where is it going, I do not even know that? Many would take a WPS but who is most deserving? I had many doubts that I had made the best decision for the district financial.

[Matthew 14: 31](#): Jesus says, "You don't have much faith". [Why did you doubt me?](#) Well let me tell you what has happened since Friday. Yesterday I had an email from a person making a donation of \$1,200.00 to pay for half of a WPS! Where did that come from? After much thought and many prayers the location was selected. Last March I visited Ciego de Avila District and District Superintendent Carlos Luis Pando this was my first time in the district. When talking with Pastor Carlos I learned no one from Florida had visited his district in three year. He said he had been praying for someone or something to happen for three years. After three years of prayers I feel they had "no doubt" that something good was about to happen. Three years of waiting, would you not doubt why am I wasting my time? I think I found the most deserving location for this system. Their faith may have been stretched but never broken.

I just thought you would enjoy the power of God. Yes, we still need \$1,200.00 to pay for this system but God has this under control. Please do not hesitate to tell this story, God has someone out there just waiting to hear this.

Today the 50% initial payment was made to Water One for our September delivery, thank you all for your support. Any questions please just email or call me.

In Christ,

Dan Christopherson
