CUBA
SO
CLOSE...
BUT, A
WORLD
AWAY!

Cuba Plead

Over a month's time I receive many emails from Cuba, every situation is different yet many are the same. There is so much need in so many areas. I always write back with encouragement and tell them I will be praying for their dilemma.

This email I recently received touched my heart and I am sure it will touch yours.

In Christ,

Blessings brother Dan

We thank God very much for your life and ministry.

Recently we had the visit of the National President of Men's league to establish a men's league in our congregation.

Among the things we talked about was the need we have of a water filter, because here in Contramaestre the water we got in our houses comes from a river that is close by and contaminated. People have to walk more than 1 km to buy fresh water sold by the government and the lines to get it are huge.

He told me you have been helping a lot of churches with water filters, which are also a benefit for the community.

I think that if we could install one here it would be of a great help for the congregation and the community.

Recently our son was hospitalized because he got a parasite through the water, because sometimes we drunk water from the pipe.

The situation with the water is pretty bad, the sewerage from the city goes to that river, and people also wash cars there and have pig corrals close by.

I will let this issue to your consideration because I know you hard work and the possible projects with the districts.

*I am sorry to bother you.
In Christ,*

Pastores Juan y Damicela
Iglesia Metodista de Contra maestre
Calle 9 #79 /10 y 12, Lumumba, Contra maestre, Santiago de Cuba.
